

Line Tenders

	Length mm	Width mm	Height mm	Line Size mm	Mounting	Gear Ratio	Power Ratio	Art. No.
Fixed	140	112	55	12	4 x M6 mm	1.0:1	6.5:1	491401
Track	122	112	65	12	T-track 32 x 5 mm	1.0:1	6.5:1	491401

ANDERSEN Line Tenders® have been developed for easy and simple spinnaker up/downhaul, Genoa-car and furling-jib systems. By operating a spring-loaded pin, you can select left or right ratcheting. Removing the drum and rotating the pawl housing 90 degrees changes the locked position to a free wheel function. The ANDERSEN Line Tender® is available for fixed or track mounting.

Rigging Screws

	Wire/Rod Diam. mm	L min. mm	L max. mm	Pin Diam. mm	Toggle Depth mm	Toggle Width mm	Art. No.
Wire	6	212	320	12	27	12	103306
Wire	7	267	380	14	32	16	103307
Wire	8	318	450	14	37	16	103308
Rod	8.4	343	475	14	37	16	103608
Wire	10	380	565	16	40	18	103310

Wire	14	490	720	22	61	25	103314
Rod	12.7	522	752	22	61	25	103614

ANDERSEN Rigging Screws® are yet another quality product, available from 6 mm to 14 mm wire and rod. Polished stainless steel with a smooth surface provides optimal protection of sails and halyards. The materials used are hard-drawn bronze and stainless steel, providing smooth operation of the thread. This also allows for easy adjustment — even with a heavy load.

Handles

	Length mm	Weight kg	Art. No.
8" Lock in	203	0.40	507197
10" Lock in	254	0.45	507198
10" High-End	254	0.92	507510
10" Double High-End	254	1.11	507520

ANDERSEN Handles® are ergonomically designed for perfect power transfer. The spring-loaded locking system enables one-handed operation, and the profile-pressed steel makes the handles strong and light.

Turning Blocks
