

## Devices - TECHNICAL CHARACTERISTICS

---

### 01803... - Auxiliary battery-holder unit

The auxiliary battery-holder unit houses 2 batteries (not supplied) connected in series and power through 01804 main power supply unit; it enables to power the system in case of power outage.

#### Technical specifications

- supply voltage (Vn): 27 ±1 V d.c.
- rated voltage (In): 150 mA
- max output voltage: 60 mA
- protection degree: IP30
- operating temperature: -5 - +45 °C (for indoor)
- batteries: 2x12 V - 2 Ah
- installation: flush (with 16895) or surface mounting (with 16894)
- protection type: against cover removal with microswitch protection
- 3 connection terminals for the connection to 01804 back-up unit. Two terminals for battery connection and the third one for the protection against wire cutting.

### Conformity to Standards

EMC Directive  
EN 50130-4, EN 61000-6-3 Standards

### 01806 - Outdoor siren

Complete with container of polycarbonate resistant to even the harshest weather conditions, the outdoor siren provides the remotely audible sound and optical signal for all alarm conditions. The siren is self-powered (battery not included), microprocessor-controlled and equipped with a built-in indicator lamp (flasher).

#### Technical specifications

- rated voltage (Vn): BUS 20-30 V
- protection degree: IP34
- operating temperature: -25 - +55 °C (for outdoor use)
- battery (Vn-Ah): 12 V - 2 Ah
- installation: surface mounting
- FM sound emission and choice of different alarm signals;
- high-performance exponential moving-coil loudspeaker;
- protection against: wire cutting, lamp filament breakage, tampering;
- sabotage protection device against thermal launch (flame-proof device)
- type of battery:
  - rated voltage: 12 V
  - capacity: 2 A h
  - battery number: 1

### Conformity to Standards

EMC Directive  
EN 50130-4, EN 61000-6-3 Standards
