

Devices - TECHNICAL CHARACTERISTICS

Two rocker push button and actuator for rolling shutters

Switch with two rocker push button and 4 A 250 V~ relay output actuator, to complete with interchangeable 1- or 2-module button. It can be pressed at the top and the bottom too, and independently configured from the rolling shutters actuator relay.

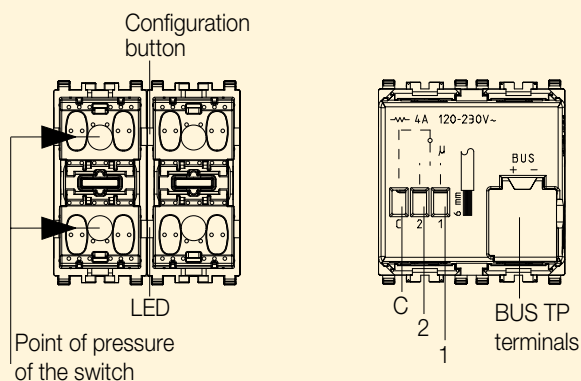

Technical specifications

- rated voltage: BUS 29 V
- absorption: 22 mA
- connection terminals:
 - BUS TP,
 - relay contacts (C, 2, 1)
- controllable loads to 120-230 V~:
 - motors $\cos\phi$ 0,6: 2 A
- operating temperature: -5 °C +45 °C (for indoor use)
- possible configurations:
 - ON/OFF 1-way switch
 - switch for dimmer
 - switch for roller blinds
 - activation of 2 scenes

Conformity to Standards

LV Directive, EMC Directive
EN 50428 Standards

Connections and front views

Three rocker push button and actuator for rolling shutters

Device to be used as three single buttons or one single and one double, depending on the button. It can be configured independently from the actuator too. It can be pressed both at the top and at the bottom.

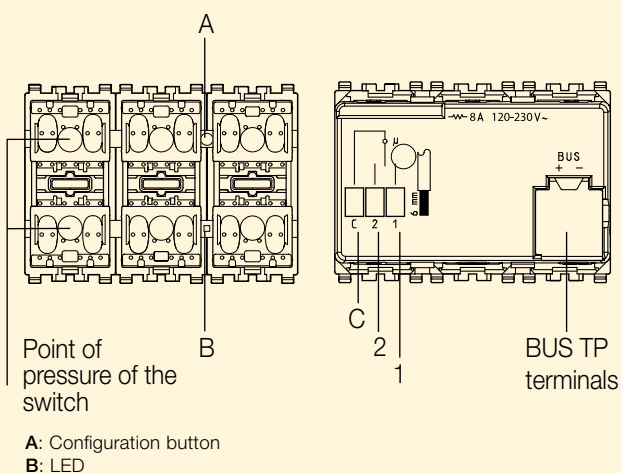

Technical specifications

- Rated supply voltage: BUS 29 V
- absorption: 25 mA
- Relay output
- Controllable loads at 120-230 V~:
 - resistive loads: 8 A (20.000 cycles)
 - motors $\cos\phi$ 0.6: 3,5 A (100.000 cycles)
- Button: double or single
- Terminals:
 - TP bus
 - relay contacts (C, 2, 1)
- Possible functions:
 - ON/OFF switch
 - roller shutter control
 - dimmer control
 - activation of 2 scenes

Conformity to Standards

LV Directive, EMC Directive
EN 50428 Standards

Connections and front views

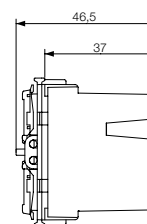

Two rocker push buttons and roller blind actuator

Two rocker push buttons and roller blind actuator with 4 A 120-230 V~ relay output, to complete with 1- or 2-module buttons - 2 modules
