**MANUFACTURER FOR 40 YEARS**

RV PRODUCTS
AUGUST
2019

For the past 40 years *ZWAARDVIS* (Dutch translation for Swordfish) has specialised in the development and production of helm seats, seat pedestals and table pedestals for yachting and commercial shipping markets. We also supply into other leisure and commercial markets which include caravans, motor homes and commercial and service vehicles as customs and police.

Next to our standard products we can design custom made products according your specifications in consultation with you and our engineers.

Our keywords are design, quality and reliability!

ZWAARDVIS products are distributed through-out the world.

Visit our website at **www.zwaardvis.com**
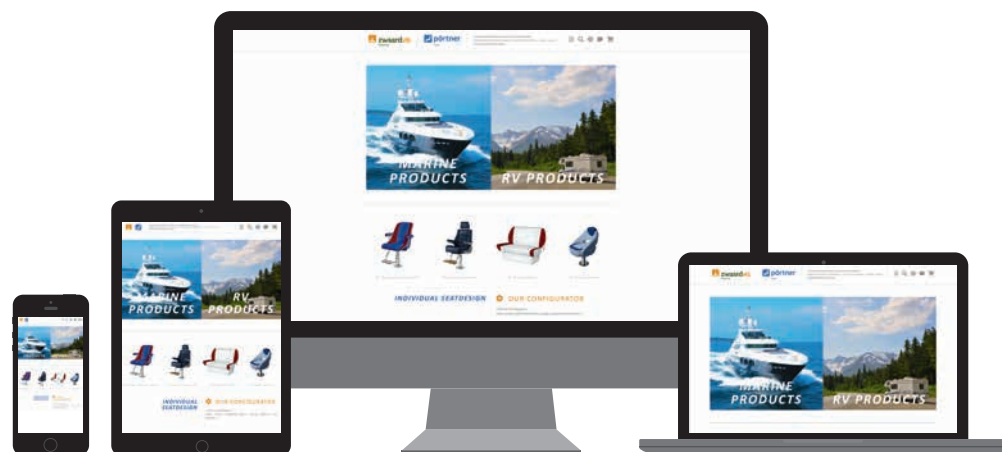

ARE YOU LOOKING FOR A SOLUTION?

Tables in motor homes can often be problematic if the product is not designed correctly. Poor or impractical mechanisms for locking and adjustment, table top movement even when locked and limited leg space are just a few of the problems associated with other pedestal systems. Zwaardvis has been developing and manufacturing high quality table pedestals for boats, caravans and motor homes for the past 40 years.

With many different designs for various applications you will find a solution which is tailored to your installation within the Zwaardvis range.

## TABLE PEDESTAL WITH COMFORTABLE LOCKING SYSTEM

Free standing, easily removable table pedestal with comfortable locking system for optimal space in RV and boat. The pedestal is easy to install and remove by 270° pivoting moverment of the column. Vinyl support for removable and pivoting table top. Base gradually rising up to 12 mm to avoid stumbling. Extractable bench/bed systems in campervans will slide over the base easily. Available with a coated steel base for RV's or a polished stainless steel base with watertight slot for maritime purposes.

Columns are available with diameter 60 mm for table position and 76 mm for bed and table position. 3 models, available in several heights:

- *Anodized aluminum, ribbed surface*
- *Anodized aluminum, smooth surface*
- *S/S 316, mirror polished*

Standard heights 670 and 720 mm. Each Ø 76 mm model is also available with length 400 mm for bed height.

Rubber clamps are available for the demounted column. Other solutions for table tops with pivoting, folding or sliding movements on request.

P L U G - I N

Simple, solid and inexpensive solution to convert a table into bed position. Just remove the plate with support and the inner column. Afterwards put the table support on the short column. To get a table you plug the inner tube in the short column. The short column has a tapered fitting at the bottom and a ribbed fitting at the top matching the inner tube to avoid wobbling and rotation. Choose for a the table top with the function rotate, rotating & slide or rotation and slide in every direction. Available in several standard heights. Other heights available on request. Plastic clamps to put away the innertube as option.

Surface mount table pedestal | for bed & table | changed by removable inner column | base Ø 250 mm

64200

Where space is limited, special table sliders in one or crossed directions makes it easier to take as seat on a **L** or **U** shaped bench.

ITEM NO. 64200

Allows stepless horizontal movement within 200 mm. It is fastened with screws on the table support of all table pedestals except *COLUMBUS* and *GAMMA*.

ITEM NO. 64220

Very flat, locks securely at two sides with a front lever. Due to its Delrin stick-on profiles it only matches *ALPHA*, *BETA*, *PROTEUS* and *INOXX* pedestals. Upper rail of anodized aluminium. Corrosion-proof. For/aft 180 mm.

64220

ITEM NO. 64425

The table can slide in 2 directions to facilitate sitting-down when space is limited. Easy handling with one central lever for effective locking-device. Solid construction. Minimum size of plate is 500 x 500 mm. Available as an option in connection with a table pedestal *RHO, SIGMA, OMEGA, LAMBDA* with tube diameter 60 mm or *PLUG-IN* with 76 mm. Further as replacement kit for existing pedestal with support matching 60 or 76 mm *(see different item numbers).*

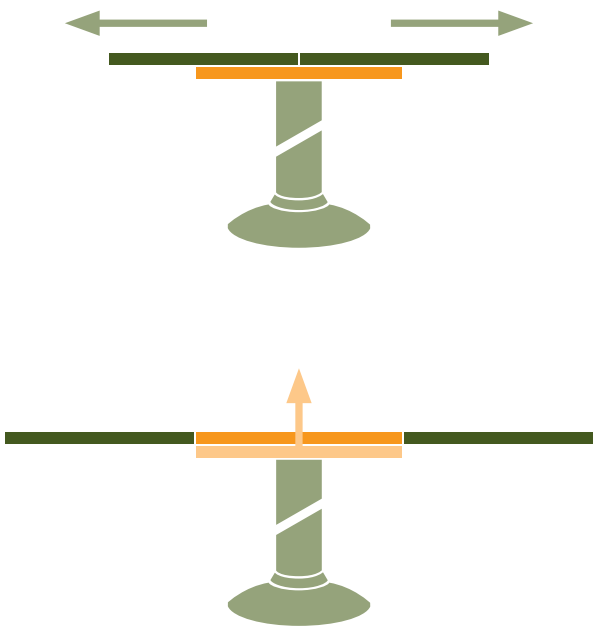

ITEM NO.	ITEM
64200-49	Table slide system, length 490 mm, slides 270 mm (63160/63161) / 210 mm (63760/63176) *(see website for different lengths)*
64220	Sliders, slides 180 mm, locks at both ends, locking with one grip at front, height 30 mm
64425-60	All Direction table support for 60 mm tube, mounting surface 500x500 mm, 200/230 mm pivoting/sliding *(see website for different lengths)*
64425-76	All Direction table support for 76 mm tube, mounting surface 500x500 mm, 200/230 mm pivoting/sliding *(see website for different lengths)*

64425

Table support with a central pop-up table top extension. If one wing is moved by manual operation, the other side will move automatically in opposite direction. The pop-up unit is served by handles at both sides of the central column at the bottom side of the support. The table support needs an additional basic support to fit on columns with a diameter of 60 or 76 mm *(ITEM NOS. 64023/63776).*

This table support is suitable for light weight table tops for RV and caravan.

For wooden table tops we recommend the *T-SYSTEM POP-UP (ITEM NOS. 639070/639071, on page 21),* combined with *TRITON* table columns.

POP-UP RV SLIM-LINE

ITEM NO.	ITEM
64510	Pop-Up RV Slim-Line table support, table extension length 200–310 mm, width > 500 mm, length outside wings > 330 mm
