

EIKON

EIKON

FOUR-DIMENSIONAL LUXURY AND TECHNOLOGY

EIKON **TACTIL**

EIKON **EVO**

EIKON **CHROME**

EIKON **TOTAL LOOK**

FOUR AESTHETIC DIMENSIONS.

Elegance, excellence, value: there's no such thing as a single idea of luxury. Luxury is a dimension with many interpretations, all in constant evolution. And if we're talking about energy, this dimension is Elkon.

Every concept of luxury finds its perfect expression in Elkon: technological, chic, sophisticated, essential.

Four product lines with different dimensions, finishing and functions, but sharing one common denominator: controlling energy superlatively.

ULTIMATE TECHNOLOGICAL EXPRESSION.

When ultimate aesthetic expression joins forces with avant-garde technical functionalities, the result is absolutely unsurpassable: the four Eikon lines not only embody an apex of contemporary formal elegance, they also personify and express truly advanced technology. Take the performance of the By-me home automation system: intuition and simplicity offering energetic efficiency, maximum control and absolute safety and security. The result? Total comfort, tailor-made for every individual vision of the ideal habitat.

EIKON TACTIL

A technological jewel, as pure as a diamond and as light as a feather.
Transforming normal everyday gestures into special moments of pleasure.

EIKON EVO

A celebration of sculptural beauty, exquisite finishing and functional elegance.
Transmitting unprecedented charisma and allure to any room.

EIKON CHROME

A new definition of style where detail is supreme.
Distinction with discretion.

EIKON TOTAL LOOK

The ultimate expression of simplicity, in shape and colour.
Uncompromisingly in command.

EIKON **TACTIL**

THE FUTURE TAKES SHAPE

SEDUCTIVE

RIGHT FROM THE FIRST TOUCH

Lightly touch the luminous glass surface and pause for an instant to admire the delicate glow of the crystal finishing. A featherlike gesture of the finger turned by elegant touch technology into a commanding control over energy.

SENSITIVE TO YOUR PRESENCE

Elkon Tactil is home automation intelligence that reads your mind: the command proximity sensor detects your approach and, without waiting for a command, activates the device: the commands light up, waiting for your touch.

EXQUISITE TRANSPARENCIES

Unrivalled purity in an astonishingly beautiful material: the crystal employed in Eikon Tacitl is an unmistakable signature that exudes refinement while displaying extreme toughness. In four colour variants, to suit every style. The backlighting of the home automation system commands can also be personalised thanks to its RGB leds.

LUMINOSI

CRYTAL

Diamond black¹

Diamond white¹

A discreet and timeless allure plus a nonchalant elegance that effortlessly adapts to every context. In seductive hues housing perfect technologies.

LUMINOSI

CRYTAL

Aqua¹

Pearl grey^{1*}

A shining choice, with the harmony of diamond white, the purity of diamond black, the delicate shading of aqua and the timeless mystery of pearl grey.

¹ The images simulate the cover plates switched ON.

^{*} The satinising process for the pearl grey coloured glass, which gives the cover plate a luxury finish, causes the custom symbols - especially those with smaller text sizes - to be less defined when the plate is lit.

EIKON **EVO**

LUXURY UNVEILED

IMPERCEPTIBLE

IN PROFILE

An impeccable silhouette, lightly wafer-thin, protruding only millimetres from the wall thanks also to its axial controls. Seen in profile, Eikon Evo offers a subtly fascinating and impalpable presence, in tune with current interior design trends. An aery lighting command-point with a strangely suspended effect. The design created for Eikon Evo in aluminium, wood and Corian® creates an elusive sense of detachment from eventual imperfections in the wall, conjuring up a floating sensation that highlights the finest materials and their finishing.

MAJESTIC

GEOMETRIES

Forms designed to make their mark, dimensions with a delicate presence on the walls: Elkon Evo projects a sophisticated but confident image: a perfect synthesis of Vimar's aesthetic principles. A switch plate that exalts the quality of its materials and their finishing.

ORIGINAL MATERIALS

Eight different approaches to being, living and expressing luxury. Eikon Evo's stylistic options take their inspiration from the latest interior design approaches, distilling their essences and interpreting them in original and personal ways through unusual combinations of materials, colours and finishes. Offering you choices on who to be and how to appear.

PRIMARI

ANODIZED ALUMINIUM

Brilliant aluminium

Next grey

Neutral bronze

Dark bronze

Lava grey

With their innate stylishness and unfailing allure, they triumph by projecting unpredictable kinds of sobriety. Presences at once discreet and prestigious, lines both tasteful and confidently defined. These are the five different shades of anodized aluminium.

ESCLUSIVI

REFINED ALUMINIUM

Silver

Titanium

Polished gold

Satin gold

Black sapphire

Total polished gold

Total satin gold

Highly original appearances, noble personalities, irresistible appeal. Rare and therefore precious temperaments: the five declensions of enhanced aluminium need only one glance to assert their priceless values.

SCOLPITI

CARVED STONE

Carrara white

Grey quartzite

Natural split slate

Strong and determined, they reveal themselves in all their solemn physicality. Rigorous by nature, they prefer bold cuts without compromising their richness and refinement. These are the three basic character traits of worked stone.

NATURALI

SOLID WOOD

White oak

Italian walnut

Wengé

Natural wood projects vitality and immediately transmits a pleasurable sensation of calm and warmth. Simple natural qualities that permeate their appearance... always uniquely unrepeatable... the triple essences of solid wood.

LUMINOSI

CRYSTAL

Silver ice

Bronze mirror

Diamond white

Aqua

Pearl grey

Opal brown

Diamond black

Imbued with mysterious energy, crystal exerts a spell of purity and splendour like nothing else. Wrapped inside its luminous and delicate appearance lies unequalled vigour and strength. These are the essential features of all seven of the different treatments used on crystal.

RAFFINATI

NATURAL LEATHER

Cream

Tobacco

Pure appeal. The delicate harmonious shapes highlight the marriage of sophistication with genuine naturalness. A beauty with a life of its own, immune to passing time, is evident in both these varieties of leather.

SPECIALI

CORIAN®

Glacier Ice

An eclectic personality with the ability to enhance any room by its mere presence. The embodiment of high performance, innovation and intrinsic strength, this is a material that seduces through shining colours which signal its cutting-edge hi-tech content.

ESSENZIALI

TOTAL ALUMINIUM AND CRYSTAL

Total white

Total black

Total white diamond

Total black diamond

Like day and night: opposite but inseparable extremes, differently but matchingly absolute. In perfect equilibrium with their surroundings, they generate clean and clear harmonies. There are four such partnerships between aluminium with crystal: a quartet of elegant variations on a universal theme.

EIKON CHROME

DAZZLING DETAILS

RECOGNISABLE

AT A GLANCE

Beauty can be transmitted from a detail. Like the smooth and shiny chrome-plated frame that surrounds Eikon Chrome's buttons and commands. A distinguishing element that provides a touch of pure class.

PERFECT IN TWO SHAPES

Austere symmetrical lines or smoothly rounded edges? Eikon Chrome offers both possibilities through its Classic and Round design lines. Two ways of being and appearing, each with its own particular materials and finishes selected to fit the different shapes like a glove.

ECLECTIC IN MATERIALS

Its materials are multiplied by five, the colours expressing the most varied lifestyles with extraordinary precision: Elkon Chrome's versatility never loses touch with impeccable formal elegance. Thanks to the chromed frame and its innate gift for sophistication.

BRIGHT

VARNISHED METAL - CLASSIC

Arctic white

Antique white

Metallic champagne

Metallic titanium

Metallic silver

Metallic Siena

Metallic anthracite

Matt silver

Matt titanium

Matt anthracite

Ten colours, both for the strict shapes of Classic and for the shiny curves of Round. Projecting personality onto a room with the assertiveness of simplicity and the reliability of metal painted with ecological paints.

BRIGHT

VARNISHED METAL - ROUND

Arctic white

Antique white

Metallic champagne

Metallic titanium

Metallic Atlantic grey

Metallic silver

Metallic anthracite

Matt silver

Matt titanium

Matt anthracite

REFINED

REFINED METAL - CLASSIC

Satin gold

Satin nickel

Polished gold

REFINED METAL - ROUND

Satin gold

Satin nickel

Polished gold

Satin chrome

Seven different switch plate variants, both matt and shiny, match any style of furnishing. Nobility of character and immediacy, evoking an unmistakable feature: sheer excellence.

INOX

STAINLESS STEEL - CLASSIC

Brushed inox

STAINLESS STEEL - ROUND

Brushed inox

The icy perfection of steel is expressed in two versions where only the shape changes. Natural brushed steel is the material for both Classic and Round, projecting a brightly uncompromising personality.

WOOD

SOLID WOOD - CLASSIC

African wengé

White oak

Italian walnut

SOLID WOOD - ROUND

American cherrywood

White oak

Italian walnut

The warmth of the best woods slips easily into modernity, being a material with a versatile temperament: three different shades both for the formal rigour of Classic and the rounded lines of Round

GLASS

CRYSTAL - CLASSIC

Black ice

White ice

Silver mirror

An image of sophisticated discretion: exclusive procedures produce the fire-shaped crystal in the Classic style. In three traditional colour variations: black, white and silver. But the class of glass is simply evergreen.

EIKON TOTAL LOOK HARMONY IN COORDINATING COLOURS

SIMPLICITY

IN COLOURING

Delicately luminous in white, elegantly refined in anthracite grey, technologically modern in Next silver: Elkon Total Look evokes absolute beauty through just three colours. Buttons and controls perfectly match the colours of the switch plates and the frame around them, proclaiming a monochrome vision.

DUAL FORMS

Two kinds of shape, dual personalities: Eikon Total Look Classic asserts itself with sharp clear lines, while Eikon Total Look Round reveals a milder attitude, sinuous and smooth. To let you choose the design that brings out the best in your interior styling.

UNEQUIVOCA MATERIALS

Metal is both a functional and aesthetic choice, in a line where buttons and switch plates cohabit in perfect colour harmony. In white, anthracite grey and Next silver, luminosity becomes a kind of matter.

BRIGHT

VARNISHED METAL - CLASSIC

Matt anthracite

Arctic white

Matt silver

White for purity, anthracite grey for modernity, silver for allure. And again, clear sharp lines or soft curves. Whatever the context, Eikon Total Look contributes to any space with its discreet and decisive present-day presence.

BRIGHT

VARNISHED METAL - ROUND

Matt anthracite

Arctic white

Matt silver

ORGANIZING ENERGY

SENSORIAL TECHNOLOGY

SPECTACULAR

FROM ANY POINT OF VIEW

The technological functions are superior even in terms of visual quality: the multimedia video 10" touchscreen shows you what's going on inside and outside the house in HD images and coordinated and personalised graphics. And thanks to internet interfacing, it's possible to exercise remote control via smartphone, PC or tablet. So you can keep an eye on your home even when you're not there.

PRECISE COMMUNICATIONS

Technology means this as well: a 4.3" wide touchscreen video entryphone offering you complete command of all your entryphone and home automation functions. To ensure a perfect reception right from arrival.

CARING

ABOUT DOMESTIC ENERGY

The functions applied to Elkon technology provide you with a rapid picture of your home's energy profile, organizing and visualizing both the production of energy and its consumption, either considering the entire household or else every individual device. Offering an unprecedented energy awareness which helps avoid waste.

INTERNATIONAL VOCATION

A technology that knows no borders and can be adapted to the standards and modularity of any country. Travelling with the unmistakable Italian touch of Elkon's switch plates, of course.

COORDINATED IN EVERY APPLICATION

A technology that offers perfect aesthetic coordination between every application: supervision, commands and connections to any kind of network. A complete and coordinated control-point where beauty and functional excellence coincide.

ELEGANCE OF COLOUR

A choice of three colours for buttons and commands, ranging from the airiness of white to the sobriety of anthracite grey via the shining elegance of Next silver. All in the name of a technology inseparable from aesthetic appeal.

CONTROL

global monitoring

remote control

local/room control

Global monitoring.

Total supervision of all functions: climate, video door entry, lighting, sound system, automation, access control, burglar alarm, CCTV.

Remote control.

The entire home automation system can be controlled over the Internet using a PC or mobile, or a smartphone or tablet of the latest generation.

Local control.

All functions incorporated into the dwelling can also be controlled locally by way of numerous devices that will allow personalization of each single room according to the needs of the moment.

Room control.

Supervising a room or the entire system via stylish devices featuring intuitive icons.

COMFORT

automations

sound system

lighting

Scene control.

Lighting, automation, entertainment and all the other functions of the system can be easily controlled by one or more scenario buttons

Automation.

Elegantly styled devices for raising or lowering shutters and curtains or operating other automated mechanisms.

Sound system.

A system delivering high fidelity guaranteed by digital audio and superior quality speakers. It controls up to four different sound sources with different playback settings in each room.

Lighting.

Universal dimmers can be used to control the brightness of all light sources - including RGB fixtures - creating interplays of coloured light.

ENERGY EFFICIENCY

climate control

energy management

Climate control.

Preferred temperature maintained throughout the dwelling, controlled centrally from a touch screen, with the facility of programming different times in different rooms, and locally by way of individual thermostats.

Energy management.

Decide the energy policies in order to prevent power wasting and shutting down the energy loads with specific priorities.

Smart lighting.

Motion and brightness sensors can control the lighting sources in a smart way in order to save money.

Load control.

Annoying power failures eliminated for good. The home automation system is able to switch off loads identified as low priority in the event of power usage rising above contractual levels.

INTERNATIONAL

worldwide

Universal installations system.

Switches, controls and socket outlets how and where you want: with horizontal or vertical configuration, in multi-module series, installable on various types of walls (plasterboard, masonry, glass, and timber).

Foreign standard sockets.

Wherever in the world you may be, Eikon can provide plugs and sockets for every standard.

Modularity.

Modularity and installation versatility in a range of products that is so vast as to allow the creation of tailored systems.

SAFETY

automations

access control

technical alarms

Loads control.

Every load is controlled in order to switch off those as low priority so the appliances of the home are protected from power failures.

Access control.

Centralized solution based on KNX technology and RFID Mifare reader for hotel, hospitality and offices that guarantees the secure access in any room of the building.

Technical alarms.

Specific sensors detect gas or water leakages, activate acoustic and optical signalling and a message via SMS or e-mail.

SECURITY

video surveillance

video door entry

access

burglar alarm

Video door entry system.

A wide range of entrance panels and video entryphones allows to check who is calling at the door and you keep in touch with the outdoor of your home.

By-alarm: burglar alarm.

Protecting spaces from intrusion, in both residential and small-scale business contexts, is now even easier and more intuitive. Stand-alone and expandable with a vast array of devices, the By-alarm system stands out due to its high performance levels and its connection with the user (via GSM or via IP) and surveillance bodies (via SIA and CONTACT-ID protocols), as well as its integrability with By-me home automation.

A history with deep roots.

Light is energy... heat... life... in this direction we work since 1945, with passion and the desire to innovate. A long tradition and a history of success that over the years, has led us to be protagonist in Italy and present in the main international markets.

Made in Italy.

The heart of our company, where we create, design and manufacture our products, is in the North East of Italy because we believe in the Made in Italy in all its forms. From the materials to the shapes, the color matches to electronic processes, we are distinguished by a style and technology that speak our language all over the world.

Design and technology.

Our products evolve with lifestyle thanks to the special attention to modern living trends. This allows us to offer finishes, details that make our products items of interior design. Convinced that form and technology must live together, we dedicate time and energy on developing new projects of electronic and electrotechnical engineering and materials.

Research and Development.

To ensure the best of technology and design, 6% of our annual turnover is invested in R&D. This has allowed us over the years to lodge more than 180 patents worldwide, reflecting the attention of the great innovation like the little details that make every day life more simple and comfortable.

Production quality and customer service.

Before leaving the factory, we test our products one by one. It is no coincidence that we deserved the most important quality certifications. And to ensure to our customers the best, we offer constant support before and after sales, following them at all stages of the relationship with services designed and calibrated to their needs.

Internationality.

We are a team of 1300 persons in Europe, Asia and South America, ready to satisfy our customers all around the world. We offer our products in over 100 different Countries, with different regulatory standards and different lifestyle, spreading around the world design and Italian technology.

Green Attitude.

We work with great care of the environment in all what we do, sure that only by protecting the world it will be possible to progress and grow in the future. Our manufacturing cycle is characterized by low environmental impact. We recycle 60% of the plastic material waste and most of the metal. We only use water-based paints or UV curing. We are replacing the electroplating bath with the innovative and more environmentally friendly MSD process that eliminates any type of harmful emissions.

All-round safety.

The safety of people is an absolute priority. This is why we want to create secure and comfortable environments, using high quality and user-friendly products that are the outcome of research targeting the common good. Like the SiCURY shuttered mechanism, a patent system developed in 1968, which revolutionized the safety of power sockets, and which we licensed free of charge to all operators in the sector, so that the lives of children could be made safer and parents less worried.

A CULTURE BASED
ON **SOLID** AND
CLEAR VALUES.
