MARINE SUSPENSION SEATING

SHOCKWAVE S5 SENTINEL

SW-07823-B

The Shockwave S5 Sentinel provides comfort and safety to boaters, offering them an experience they've never had before. It offers a smoother, safer and more comfortable ride, protecting occupants from the shock of wave impact. Recreational boaters can stay out longer and travel farther with less fatigue.

- ✓ Easy to install
- ✓ Can be paired with almost any seat
- ✓ On-the-fly adjustment – Rebound & Compression Rates

- ✓ Performance tuned 4-link design for a smooth ride
- ✓ Custom tuned and valved, fully adjustable marine FOX FLOAT H2O shock absorber
- ✓ The finest corrosion resistant marine grade components and coatings
- ✓ Internationally recognized as a premium suspension seat company

S5 SENTINEL BENEFITS

- Improved performance and strength
- Increased lateral stability
- Designed and manufactured in Canada
- Custom tuned and valved, fully adjustable marine FOX FLOAT H2O shock absorber
- Surge protection: Suspension travel is 4-inch vertical and 1.5-inch forward, mitigating deceleration associated with wave impacts
- Adjustable compression and rebound rate
- Minimal parts count and simple construction

S5 SENTINEL FEATURES

- Marine grade aluminum die cast construction
- Stable 8 pivot design for higher loads and a smoother ride
- High life cycle IGUS bushings
- 316 stainless steel hardware
- Easy to mount and adapt to current seating
